The Maire Tecnimont Group rejects corruption in all its forms, as well as any action precursory to this, and undertakes to prevent any behaviour that could even be interpreted as an attempt to obtain an improper advantage or favour from a third party. Therefore, it is strictly prohibited to exploit existing relationships with subjects who serve as public officials or are employed in public service, in order to carry out an operation of illegal mediation; to offer or supply money or other benefits (gifts, donations, sponsorship, a promise of hiring, etc.), directly or via a third-party, to a public officer or private subject, or to a subject recommended by these, or authorise anyone to carry out these activities, directly or indirectly, in order to unfairly promote or favour

Any employee or collaborator involved in a situation that could, even potentially, result in a conflict of interest, must immediately refrain from participating in operational/decision-making processes and inform his/her department head so that operational solutions can be identified to safeguard the independence, transparency and fairness of behaviour in the execution of activities.
